Professional Summary

Full Stack Software Engineer with 3+ years of experience designing and developing scalable SaaS applications, enterprise platforms, and REST APIs using React.js, Next.js, Node.js, TypeScript, PostgreSQL, and AWS. Skilled in building secure authentication systems, cloud-integrated solutions, performance optimization, and scalable application architecture from development to production deployment.

Technical Skills

Frontend: React.js, Next.js, TypeScript, JavaScript, Redux Toolkit, Tailwind CSS, HTML5, CSS3
Backend: Node.js, Express.js, NestJS, REST APIs, JWT Authentication, RBAC, Prisma ORM
Database: PostgreSQL, MongoDB, MySQL, Redis
Cloud: AWS (EC2, S3, IoT Core, Lambda), Docker, Git, GitHub, CI/CD
Tools: Postman, Swagger, VS Code, Vercel, Render, Cloudflare

Professional Experience

Software Engineer (Full Stack)

2025 – Present

Infahs Pvt Ltd

- Designed and developed scalable SaaS applications using React.js, Next.js, Node.js, TypeScript, PostgreSQL, and NestJS.
- Built secure authentication, RBAC, REST APIs, dashboards, and reusable backend modules for enterprise applications.
- Developed order management, inventory, reporting, workflow automation, and notification systems.
- Built real-time IoT dashboards integrating weather, soil moisture, leaf, and satellite data for orchard monitoring and analytics.
- Optimized PostgreSQL queries, API performance, and frontend rendering to improve scalability and application responsiveness.
- Diagnosed and resolved production issues, authentication failures, database bottlenecks, sensor data synchronization, and deployment challenges.

Technical Engineer

2023 – 2025

Sheen Agri Fresh Pvt Ltd

- Managed technical infrastructure, deployments, and system maintenance.
- Resolved hardware, software, and network issues to ensure operational continuity.
- Improved system reliability through troubleshooting and preventive maintenance.

Projects

Unicsi – Multi-Tenant E-Commerce SaaS Platform

GitHub

- Built label generation, order management workflow, inventory, supplier, and products management modules.
- Developed Shopify integration, product synchronization, RBAC, and scalable REST APIs.
- Tech:** Next.js, Node.js, PostgreSQL, Prisma, AWS.

Smart Orchard IoT Platform

GitHub

- Built weather, soil, and device monitoring dashboards with real-time analytics.
- Integrated AWS IoT Core, MQTT, Lambda, irrigation automation, disease recommendations, and alert notifications.
- Tech:** React.js, Next.js, Node.js, PostgreSQL, AWS IoT.

Enterprise HRMS SaaS Platform

GitHub

- Built employee, attendance, leave, payroll, organization, and role management modules.
- Developed onboarding, subscription plans, approval workflows, analytics dashboards, and employee self-service.
- Tech:** Next.js, NestJS, PostgreSQL, Prisma, Redis, AWS.

POS & Inventory Management

GitHub

- Built POS billing, inventory, sales, customer, invoice, and reporting modules.
- Developed analytics dashboards, stock management, and sales reporting features.
- Tech:** React.js, Next.js, Node.js, PostgreSQL.

Education

Bachelor of Engineering (E&C)

University of Kashmir

2019 – 2023

CGPA: 7.70 / 10

Certifications

- Full Stack Web Development with DSA – Internshala
- Embedded Systems – Prolific Technologies, Srinagar
